

We Have Been Tricked Into a Global Scam. Let's End It Now!

The message 'save lives', that the government is using to justify lockdowns and other restrictions is a gross misrepresentation of the facts:

The White Rose

Defend Freedom

Defend Humanity

- For most people covid-19 is no more dangerous than the flu. In fact, 99.8% of those who contract the virus will survive it.
- The average age at death of those dying with covid-19 is above 82 years – greater than the average life expectancy in the UK!
- Of those who died with covid-19, most had a serious pre-existing condition which was most likely the cause of death.

Despite these facts the government and the mainstream media have orchestrated a campaign of fear misleading the people, frightening us into believing we are in the midst of the deadliest pandemic ever, forcing us to accept restrictions on our liberty and accept unproven and untested vaccines to 'beat the virus' and 'save the NHS'. What is happening in the background is a silent genocide.

More people will die from the restrictions and lockdowns than from the virus.

- Hospitals have been emptied for covid-19 patients that never turned up.
- Treatments for other patients have been delayed or cancelled.
- Thousands of excess deaths will result from undiagnosed and untreated conditions.

Lockdowns lead to:

- loneliness and depression, a surge in mental health problems and increase of suicides
- disruption of education and loss of opportunities for young people
- closure of countless businesses
- loss of employment and livelihoods

Mandating the wearing of masks does nothing to 'beat the virus'. There is no study that proves that masks are effective in reducing the transmission of any virus in a community setting. Masks:

- reduce oxygen and increase CO₂ intake
- impair cognitive function
- can cause respiratory illnesses and oral infections

Masks are dehumanising and are a symbol of suppression and control.

Fear, lockdowns, masks, social distancing and control are all efforts by governments to get people to accept the new vaccine. A vaccine considered dangerous by many experts around the world.

It's all part of the globalist 'great reset', also known as 'new world order'.

Governments who are adapting to the 'great reset' are trying to mandate the vaccine by using methods of coercion or exclusion for those refusing to accept it. This is against international law!

It is time to stop this global crime on humanity!
