

# We are sleepwalking into a Dictatorship

We have a corrupt, self-serving Government (all parties)  
WHO have broken their commitment to us

Can we trust them with their plans for Government controlled  
Digital Currency / ID    15 minute towns  
Or unregulated unlicensed Fluoridation of our drinking water

## Our speech is censored

The Public and Professionals are castigated for sharing  
opposing views to the media propaganda

We pay many forms of tax  
Yet our public services are failing us

## Our government is meant to serve us

Not themselves or the global market

We are the 99%. It is time to stand together in Solidarity  
We can and will overcome the Tyranny of the 1%

**People power against illegal control**
